FOUR CAPABILITIES, AT A GLANCE

01

Portfolio & Asset Management Plans

Understand the portfolio and set long-term priorities.

02

Business Cases

Justify a specific investment to the people who approve it.

03

Capital Planning

Match requirements to funding across a multi-year horizon.

04

Investment Analysis

Compare competing alternatives on a common basis.

WHAT EACH CAPABILITY DELIVERS

01

Portfolio & Asset Management Plans

WHAT YOU RECEIVE

Asset inventories, condition assessments, risk evaluations, investment forecasts and a strategic roadmap.

ENGAGE US WHEN

Setting multi-year priorities or entering a planning cycle.

02

Business Cases

WHAT YOU RECEIVE

Option analysis, financial evaluation, risk assessment, benefit realization and a recommended investment strategy.

ENGAGE US WHEN

Seeking approval or funding for a major project.

03

Capital Planning

WHAT YOU RECEIVE

Multi-year capital plans, funding forecasts, ranked investment priorities and budget schedules.

ENGAGE US WHEN

Building or defending a capital budget.

04

Investment Analysis

WHAT YOU RECEIVE

Lifecycle costing, discounted cash flow, NPV, risk modelling and Monte Carlo simulation.

ENGAGE US WHEN

Choosing between ownership models or evaluating a lease or P3 arrangement.

PROPRIETARY PLATFORMS

DOMESTM

Decision Optimization & Modeling Environment

Discounted cash flow analysis, option evaluation, sensitivity testing and Monte Carlo risk simulation.

ARCHM

Asset & Resource Cost Harmonization

Project costing, funding requests, budget forecasting and historical funding tracking.

Let's make the [next decision](#) a better one. Tell us what you are weighing up — initial consultations are complimentary.
